

Race Nights for **FUN and Entertainment** a lot of people are doing this to celebrate family birthdays, anniversaries etc.

If you are not holding the night in the same house, get everybody who is taking part to link up to Zoom / Google Meet / Facebook / Skype etc.

The person who has made the download acts as the host for the evening and works out the timings and the fun money payouts.

Each person is allocated 3 x £10 fun money bets on each race on three different runners (one £10 bet per runner) and the following applies if a selection by that person finishes first odds of 10/1, a selection finishes second odds of 5/1, a selection finishes third odds of 2/1

£10 on the winner odds of 10/1 = £100

£10 on second place odds of 5/1 = £50

£10 on third place odds of 2/1 = £20

Some people could have first, second and third, some first and third, some just second etc it adds to the fun by keeping an updated score card it brings the Sport of Kings to your household(s) event.

At the end of the racing the person with the most fun money wins a prize.

You can also use this system with points instead of fun money and in this case the person with the most points at the end of the evening is declared the winner.
