

**Tote Calculator** – Payout Winner Only

Always 8 runners in our races

**Settings** – Ticket price can be £, Euro. Dollar or Fun Money – Points

**Payout percentage** – From zero to 100%. We find 50% is ideal for fundraising and 100% for fun money – point's events

**Rounding** – Will round your payouts from 0.01 to 1.00. We find 0.50 is an ideal setting for fundraising events

**Saved Races** – As each race is completed you have a breakdown of tickets sold and charity event profit for fundraising events on a race by race basis

### **Race by Race**

**Tickets sold** – Enter the amount sold on that runner either by doing the math yourself or using the calculator box that allows you to enter start & ending numbers and calculates for you

**Payout & odds** – Will only come into play when the total sold for all eight runners have been entered

**Payout** is broken down to how much will be paid out per ticket if that runner wins

**Odds** can be announced once the betting desk has officially closed. Announce all eight or just the favourite and outsider

**Save** (blue box) **Reset** (red box)

**Save** - Will transfer that races details to Saved Races on screen to help you keep a running total

**Reset** -No information will be retained

**Download to Excel** – Transfer and save your event details to a laptop/computer to revisit after the night
